ACADEMIC EMPLOYMENT

- Research Data Scientist**, Hub for AI and Data Science Leadership (HAIL)
University of Pittsburgh 07/2026 - Current
- The Resilient Economy Lab**, School of Computing and Information
Research Affiliate 07/2024 - Current
- Responsible Data Science, Complexity, and AI for Peace (ReDSCAIP) Lab**, Department
of Political Science
Research Affiliate 07/2024 - Current
- Graduate School of Public and International Affairs**, University of Pittsburgh
Post-doctoral Associate 07/2024 - 06/2026

RESEARCH INTERESTS

My research investigates how general and clean **technological change** transforms **labor force development**, leveraging administrative and workforce intelligence data to study occupational mobility, human capital formation, and policy outcomes. My work integrates **causal machine learning** and **advanced computational tools** to develop innovative approaches for identifying the labor market effects of technological transitions.

EDUCATION

- Department of Political Science**, University of Pittsburgh 08/2018 - 04/2024
Ph.D.
Fields: Comparative Politics, Political Methodology
- Department of Political Science**, Duke University 08/2015 - 05/2017
M.S. in Political Science
- Department of Economics**, North Carolina State University 08/2013 - 05/2015
M.S. in Economics
- Department of Finance**, Jiangnan University 08/2009 - 05/2013
B.A. in Finance

PUBLICATIONS

Under Submission

Upward mobility in the green sector for frontline fossil fuel workers. **Qing Chang**, Michael Aklin, Morgan R. Frank, Shanti Gamper-Rabindran. *Under review at Nature*
Funded by Carnegie Corp of NY, grant no. G-22-59414
